Matthew Kreilich, AIA; and
Mary Springer, AIA
GENERAL CONTRACTOR:
Streeter & Associates
INTERIOR DESIGNER:
Martha Dayton Design
LANDSCAPE ARCHITECT:
*Colberg/Tews Landscape
Architecture*

DESIGN INTENT/SOLUTION

As co-owners of an architectural building firm, the clients' vision was clear: to build a contemporary home that would honor its position on the water and blend seamlessly with the architectural traditions of the shoreline mansions, bungalows, and summer cottages of Deephaven's Cottagewood neighborhood. Snow Kreilich Architects drew inspiration from the historic architecture of Nantucket and Europe, balancing timeless elegance with relaxed lake style. Small- and large-paned windows offer dramatic views of Lake Minnetonka's shifting moods, while a black-stained white oak and steel stairway, custom oak cabinets, and gray limestone floors from a local quarry impart a sense of permanence.

JUDGES' COMMENTS

Judges appreciated the carefully positioned spaces and minimalist approach throughout. One judge enjoyed the "delightfully isolated" master bedroom, while another wanted to curl up with a book to enjoy the stunning lake views.
